

Lyris finder

Description

Lyrics finder is a program used to search for and store your favourite lyrics on tekstowo.pl. Program also allows you to search for songs on YT.

Requirements

- cmake 3.10 or newer
- msgedge.exe location must be added to PATH (C:\Program Files (x86)\Microsoft\Edge\Application is a default installation location)
- internet connection is necessary.

Build

To build and use lyrics finder you must:

- download latest release
- unpack folder
- open powershell in project directory and type:

```
mkdir build
cd build
cmake ..
cmake --build .
.\Debug\lyrics_finder.exe
```
